

CUSTOM CABLE COUNTER

**Model
CCC1**

FEATURES

- 5 Digit Counter
(4 digits for feet, 1 digit for inches)
- Push Button Reset
- Designed For Use With
Duro Dyne Wire Rope
- Fits most 5 gallon buckets
- Lightweight

Organizing materials and tools for the jobsite requires some planning. The CCC1 makes preparing for your duct hanging project alot simpler. Take an empty five gallon bucket, put a spool of wire rope in the bottom, put in some boxes of Dynatite cable locks and a cable cutter. Place the CCC1 on top of the bucket and you are ready for the jobsite.

At the jobsite remove the cable lock boxes and the wire cutter, thread the wire rope through the CCC1 measuring device and you are ready to hang ductwork. Just pull the wire rope to the length needed, cut it and reset the counter.
