

RUGGED, HEAVY DUTY CONSTRUCTION

Heavily Ribbed 16 Ga. Steel Frame, 1/8" Thick Formed Steel Handle, Cadmium-Plated.

FITS 1/2" ROUND BEARING ROD**

Especially Suited for Use On Manually-Operated Multi-Blade Dampers.

EXCLUSIVE CLAMPING ACTION ELIMINATES RATTLE

By Tightening Nut, Bearing is Securely Locked in Handle, Preventing Slippage and Rattle.

VIRTUALLY LEAKPROOF

Neoprene and Steel Washer Assembly Seals Bearing Opening to Eliminate Air-Leakage.

OFFSET MOUNTING HOLES (4)

Prevents Interference With Blade Operation, Eliminates Need to Notch Damper Blade.

**May be used with 1/2" Round Bearing No. KP-10R on Single Blade Dampers.

See reverse side for K-9 Square Shaft Quadrant.
